# Enel X joins CDP as Gold Accredited Provider

Accelerating businesses' journey  
towards environmental leadership

## In support of your CDP projects, Enel X helps you:

- **Organize** and **Report** your environmental data
- Develop and implement an **Emissions Reduction** Strategy
- **Analyze** the **benefits** and **costs** of setting different emissions reduction targets
- Procure & Advise on **Renewable Energy** Products
- **Benchmark** your company against your peers
- **Measure** and **understand** your environmental impact

### ➤ The Enel X Renewable Energy Strategy Workshop:

How it works

“ We are delighted to welcome Enel X as a Gold Renewable Energy Partner to CDP. This partnership will bring highly valued expertise to the many thousands of companies using CDP to disclose, and support them to accelerate their use of renewable energy, which is critical for speeding up the transition to a net-zero emissions, 1.5 °C-aligned economy. We are confident that Enel X's capabilities can support companies to // implement more ambitious renewable strategies
